## **Letter of recommendation**

**Deloitte Audit SRL**, a lessee in the business centre, America House, contracted in the month of March 2015 ten parking lots for the company employees.

We chose Fast Parking based on a recommendation from a close associate that assured us this company is a provider of professional and secure parking services.

Based on the negotiations, we found in the Fast Parking a serious and a flexible team that we collaborated well with and decided to enter into a regular contract on medium term.

We recommend Fast Parking as a reliable and professional partner for any company that needs parking services.
