Letter of Recommendation

Generali Societate de Administrare a Fondurilor de Pensii Private S.A. appreciates the cooperation with Fast Parking SRL as excellent by the quality of the parking services provided - under the contract signed - during December 2009 - May 2013.

We chose this company to be our partner both due to a very favorable positioning of the parking lot - close to our headquarters –as well as due to the promptness with which the company met our requests. The Fast Parking team, by the conditions offered, but also by the professionalism of its members, ensured a comfortable service for our employees by a fast and easy access, including the appropriate maintenance of the parking also in winter conditions and by the constant surveillance of space.

Generali SA recommends – to any company interested - the Fast Parking firm as a serious, reliable partner that strictly meets the contractual obligations and responsibilities. We appreciate the parking services offered by Fast Parking SRL, in the Victory Square area, as a valid alternative in a very crowded office area, which clearly distinguishes it from its competitors.
