## Letter of Recommendation

Ponderas Hospital SRL hereby recommends SC Fast Parking SRL for the professionalism and efficiency demonstrated in the provision of parking services.

Considering that SC FAST PARKING owns several private parking lots, we chose the services of this company along with the opening of the new hospital in str. Caramfil no. 85A, sector 1, Bucharest. The collaboration began in January 2015 and is successfully in course.

FAST PARKING found for our collaborators and our patients the best customized solution to ensure an efficient flow of the cars in the basement where our company is based.

The PARKING FAST team in charge of this work facility proves seriousness and responsibility, being appropriately trained to meet both the hospital patients, the occasional customers, as well as the subscribers that are located in the same building.

Following this successful partnership, we are convinced anyone that will need parking lots in any other location managed by FAST PARKING will benefit from the same professional services.
